DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed July 17, 2006 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered.
2. Applicant indicated that MPEP609 requirement for a concise explanation of relevance of DE 196 12 738 is met because the document was cited in the International Search Report. The information disclosure statement filed July 17, 2006 fails to comply with MPEP 609.04(a)III because it does not include an English-language version of the search report. No search report in English or foreign language can be found in the information disclosure statement.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 17-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

Claim 17 recites the limitation "the first end" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claim 17 recites the limitation "the fuel primarily entering" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claim 17 recites the limitation "the second end" in line 4. There is insufficient antecedent basis for this limitation in the claim.

Claim 17 recites the limitation "the fuel primarily leaving" in line 5. There is insufficient antecedent basis for this limitation in the claim.

Claim 17 recites the limitation "the fuel entering" in line 11. There is insufficient antecedent basis for this limitation in the claim.

Claim 17 recites the limitation "the first direction" in line 13. There is insufficient antecedent basis for this limitation in the claim.

Claim 17 recites the limitation "the second direction" in lines 13-14. There is insufficient antecedent basis for this limitation in the claim.

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. See MPEP § 2173.05(c). Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat.

Art Unit: 3752

App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim 18 recites the broad recitation "said piston", and the claim also recites "i.e., the first piston" which is the narrower statement of the range/limitation.

Claim 18 recites the limitation "the first piston" in line 2. There is insufficient antecedent basis for this limitation in the claim.

The claims are replete with indefiniteness under 35 U.S.C. 112, second paragraph. Above is an exemplary listing. Applicant is required to review and amend all of the claims in their entirety to ensure full compliance with 35 U.S.C. 112, second paragraph.

Claim 30 is directed to a method but fails to identify any method steps.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3752

6. Claim 17 is rejected under 35 U.S.C. 102(b) as being anticipated by Koch (5,645,224).

Koch discloses a device comprising:

a body 14;

a chamber having:

a first main volume 44;

a second main volume 52;

a first channel 38;

a second channel 22;

a movable piston 26;

at least one auxiliary volume 48, 58
